1956

Dr. J. E. Fields
108 Scott Street
Joliet, Illinois

Dear Dr. Fields:

Thank you for your letter of May 10th. Here are the answers to your questions relating to information on colonial paper money issued by New Jersey during the Colonial and Revolutionary Periods (for a forthcoming article in Manuscripts):

- (1): Yes, we have such a collection in our custody.
- (2): We have 36 different varieties.
- (3): We have 51 pieces of currency.
- (4): Our collection was obtained by donations by various members of our society.

I hope this information will be sufficient as I remain,

Most sincerely,

Howard W. Wiseman

Howard W. Wiseman

October 27, 1958

J. E. Fields, M. D.,
108 Scott Street,
Joliet, Ill.

Dear Sir:

This is in reply to your letter of October 23.

We have in our custody paper money of the Colonial and Revolutionary period for the following Colonies:

New Jersey)	
Maryland)	
Massachusetts)	
New York)	96 pieces
Pennsylvania)	
Virginia)	
South Carolina)	
North Carolina)	

Two pieces of Confederate money
Two Bank Shares - Bank of the United States

Yours very truly

Thomas Amelia

Thomas Amelia, Head,
Archives and History Bureau

P. I should also suggest that you communicate with the Old Barracks Association, South Willow Street, Trenton, N. J., which has a good collection of old money.

February 26, 1965

Dear Mr. Newman:

Thank you for your recent letters.

I did not think there was much of numismatic interest in the Rehoboth book either, but I did not know what to look for, particularly. Please keep it gratis, check returned.

My research is very incomplete on the Hibernia Furnace notes. I tell you what little I know. The name of the installation was "The Adventure" or "The Adventure Furnace". It was built in the summer of 1765 by one Samuel Ford who later became involved in counterfeiting. Sold to Lord Stirling in 1771. Located 4 miles north of Rockaway, N.J. in 1880. Only denominations known to me are 1, 5 and 10 shillings. I have no idea who or how many made. I have lost the photostat you once sent and have not yet checked those specimens in Connecticut Historical Society.

Plate letters on the 1 shilling A, B, C, D, F

Plates letters on the 5 shilling

B

Chase Manhattan has photos
10 shilling

A

I very much appreciate the farthing token.

Sincerely,

Alfred D. Hoch

P.S. I think the Hibernia notes
came in a sheet of 8; 6^{1/2} sh. 1^{1/2} sh. 1^{1/2} sh.
There is also a 3^{1/2} sh. plate E.
There is a D of 5^{1/2}

17 Eva Path
Commack, New York
January 13, 1966

Dear Eric:

I have been working again on my Hibernia Furnace Project (I think it has been about 4 years so far) and thanks to the many leads you supplied me with, I have evidence of 11 different specimens. There is much evidence to support the theory that there was one sheet having 16 notes on it.

You once kindly send to me a Xerox copy of your 1 shilling note. I lost it, but believe it was plate No. F, Note number 11. I would very, very much like to obtain a high quality glossy photo of it and would naturally be willing to assume the costs.

~~Enclosed~~ Enclosed find a photo of an interesting note which I discovered last year. I must have mentioned it but don't remember if I sent a photo or not.

Is there ~~any~~ any chance of finalizing our trade for the Bank of the US. note this month?

~~Enclosed~~

Sincerely,

Alfred D. Hoch

Hibernia Furnace

April 5, 1973.

Dear Mr. Newman,

Your letter of March 29th received with enclosures. I agree 100% with your calculation of the New Jersey Bills of Credit of 1716/17. I worked the issue out using Troy ounces and came up with the same result. When listing the quantities and values of the various issues in your revision it would not seem necessary to use parentheses or square brackets if you used columnar form, with headings, somewhat as you did in the calculation of the 1716/17 issue. Authors of books dealing with books or manuscripts usually confine the use of square brackets to words or data which they themselves have supplied.

When listing authorized signers a bit of information could be added by stating the number required and which ones were alternates if given by the Act. As an example, the New Jersey Act of 1709 after naming the four authorized signers, adds "or any three of them." The Act authorizing the issue of March 25, 1724 is more specific, naming one alternate for two signers and another alternate for the second two signers. Of course this could be applied to all issues.

Enclosed is a Xerox copy of the Act of March 1713/14 which you requested. Happy to accommodate you.

Your letter of February 26th raises the question of William Bradford printing the issue of 1724. There does not seem to be any doubt but that he did. He was the official printer of the Province from 1703 until 1730. In the New Jersey Treasurer's Account, 1720-1737 (Archives of the State of New Jersey, Vol. V.), William Bradford is the only printer listed and a payment to him of 155 pounds was made on March 21, 1724. Further evidence is the fact of his printing the session laws of September-November 1723, an Ordinance in 1724, session laws and an Ordinance in 1725. Also it seems to me that the issue closely resembles the issue of July 10, 1724 of New York, where Brad-

ford was also the official printer.

I am wondering about the issue of 1733. This seems to be the first issue in the smaller size. Does the reverse have Bradford's imprint, or is the reverse blank? Beginning in 1732 the official publications came from Philadelphia presses of Andrew Bradford and B. Franklin.

If you come across the early New Jersey laws which you had previously used in your revision I would appreciate your letting me know the source.

With best regards,

bsR

Act of March 1713-1714 in reference to
Bills of Credit Dated July 1, 1709.

~~CHAP. XLII.~~

An Act to Continue and Revive the Currency of Bills of Credit appointed to be sunk in the Year 1712. and 1713. and to enable *Thomas Gordon*, Esq; Treasurer of this Province, or the Treasurer for the time being, to pay in the said Bills of Credit the several Sums of Money due from the Government to several Persons having Warrants or proper Orders for the same; and also to enable the said Treasurer to pay the said Bills in Exchange for the Bills of Credit issued out on the first Expedition against *Canada*.

Whereas the Non-payment of the several Taxes raised for the Support of Government since the Year One Thousand Seven Hundred and Eight, and for carrying on the first Expedition against *Canada*, has hindered the payment of several Debts due from the Government, contracted since the said year One Thousand Seven Hundred and Eight, to several Persons, having Warrants or proper Orders for the same. And whereas Bills of Credit, to the Value of Three Thousand Pounds, raised by virtue of an Act, entitled, "An Act for Raising Three Thousand Pounds for Her Majesties Service in this present Juncture, was to be sunk in such manner as by the said Act is directed, but the Taxes aforesaid not being fully paid, the said Bills cannot be sunk according to the true intent and meaning of the said Act, notwithstanding that the said Act is to be construed and applied to such Bills as are of the same description and value.

Be it therefore Enacted by the Gouvernor, Council, and General Assembly, and by the Authority of the same, That Bills of Credit, to the value of Two Thousand Pounds, appointed to be sunk in the Years One Thousand Seven Hundred and Twelve, and One Thousand Seven Hundred and Thirteen, shall be continued and be as current as any Bills of Credit now are, or heretofore have been, and shall pass and be received in all Payments whatsoever, in the same manner, and under the same Penalties as any Bills of Credit now do, or heretofore have done within this Province.

And be it further enacted by the authority aforesaid, That the Treasurer of the *Western-Division* of this Province shall pay and deliver unto the said *Thomas Gordon*, Treasurer and Receiver General of this Province, or to the Treasurer or Receiver General of the same, for the time being, all such Sum and Sums of Money,

Passed March 11, 1713-14
Bradford (1714) pp. 43-44

Acta Regis undecimo et tradecimo Anne Regiae.

and Bills of Credit, as are now in his Hands, by Virtue of his being Treasurer, as aforesaid; and the said Treasurer of the *Western-Division* shall also pay and deliver all such Sum and Sums of Money, and Bills and Credit, as he shall hereafter receive for the Tax of the two Years aforesaid. And the said Treasurer of the *Western-Division* is hereby impowered to retain in his own Hands, for his service in receiving and paying, six Pence per Pound, for all Money or Bills of Credit received and paid by him, as aforesaid. And the said *Thomas Gordon*, or the Treasurer of this Province, for the time being, shall issue out and pay to the several Persons having Warrants or proper Orders for the same, the several Sum and Sums of Money due to the said Persons since the year One Thousand Seven Hundred and Eight, aforesaid, and until the Twenty third Day of this present Month of *March*, he the said *Thomas Gordon*, or the Treasurer of this Province, for the time being, taking sufficient Receipts for all such Sum and Sums of Money paid by him, as aforesaid, and to be accountable for the same to the Governour, Council and General Assembly, when thereunto required.

And be it further Enacted by the authority aforesaid, That the said *Thomas Gordon*, or the Treasurer of this Province for the time being, shall receive from any Person or Persons all or any the Bills made current for the Value of Three Thousand Pounds, on the first Expedition against *Canada*, which remain in their Hands, and shall give in exchange, to the said Persons bringing them in, the Value of the said Bills in the Bills now made Current by this Act.

And be it further Enacted by the Authority aforesaid, That the said *Thomas Gordon*, Treasurer of this Province, or the Treasurer of this Province for the time being, shall pay to each of the Managers for the first Expedition against *Canada*, Fifteen Pounds, as a Reward for that Service, and to each of the signers of the Three Thousand Pound Bills of Credit, Twelve Pounds, for their Service for Signing and Cancelling the same.

ERIC P. NEWMAN NUMISMATIC EDUCATION SOCIETY

6450 Cecil Avenue, St. Louis 5, Missouri

April 9, 1973

Mr. George C. Rockefeller
74 Samson Avenue
Madison, New Jersey 07940

Dear Mr. Rockefeller:

Thanks for the March 11, 1713/14 Act. If I could only understand what they meant in the Act! I will puzzle with it further to see whether there was a revalidation or reissue or what.

Unfortunately, there is often no accurate signature authorization on some bills of credit, particularly the Continental Congress. I would have to read every law again to check the number of signatories. I gave some data on this where I felt it was important, but often omitted it as unimportant because the pictures showed what was done.

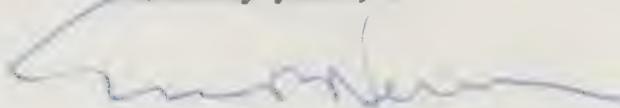

There was no Bradford imprint on any known New Jersey bill. All reverses are blank unless otherwise stated in my book (unless of course my mind was blank).

The source of my New Jersey laws was the microfilm of the Library of Congress which is part of a set concerning all state laws from colonial times forward. My notes indicate the ms. is in that microfilm. Most law libraries have that set of microfilm. Richard Picker, a dealer in colonial items, also sent me something on the laws of that period.

The New Jersey archives have an October 24, 1739 report on New Jersey currency history (Vol. 16, pp 106-8).

Thanks again for your help and suggestions.

Sincerely yours,

ERIC P. NEWMAN NUMISMATIC
EDUCATION SOCIETY

EPN/dd

6450 Cecil Avenue
St. Louis 5, Missouri

Dear Mr. Newman:

We had the photograph of the Breintnall pages taken by the Library Company, but we did get the negative, so I am having a print made up for you. I hope it will be ready by this week end. There is no list of all the botanical items in the book, unfortunately. I was hoping to get a chance to go over it more thoroughly when it comes off exhibition and before it is returned.

Meanwhile, a friend of mine named Willman Spawn, who works for the American Philosophical Society, came across the following note in The Pennsylvania Gazette which may be of use to you:

The Pennsylvania Gazette, February 17, 1763 Numb. 1782
bottom of (p. 4): Philadelphia: Printed by B. Franklin, POSTMASTER,
and D. Hall, at the NEW PRINTING-COMMICE, near the Market.

(p. 2) The PUBLICK are desired to beware of Counterfeit THREE-POUND New-Jersey Bills, which, of late, have appeared among us --- They are badly done on a Copper-plate, dated April 8, 1762, and are printed on three Folds of Paper, pasted together, the Letters in the whole Bill being very irregular, and standing much out of Line; whereas the true Bills are neatly and regularly done in a good Printing Manner, and printed on two Folds of Paper. In the first Line of the Face of the Counterfeit, the O in POUNDS is shorter and thicker than the other Letters in that Word; and in the third Line the last E in JERSEY is not like a Printing E, but is made in the Manner commonly used in Writing. In short, the whole is so ill executed, that we think, after this Notice, no Body can be imposed on by them.

The Public are also desired to beware of Counterfeit THIRTY-SHILLING Bills of the same Money, as lately advertised in this Paper.

EPN COLONIAL PAPER, N.J. P. 7-16

1/26/56 I've never had any of this issue. There were none in the collection, and none in the Shilke collection (to be auctioned at the Blue Ridge convention August 5-8, 1965. I'd leave them all unpriced, or, raise them, keeping them in line with the number printed: **

6/22/56 I'd leave these prices, but, change the middle grade to VG or Fine. There seems to be too big a price jump from fair to good, and not enough from good to UNC. Or, change the first two to good and fine, and eliminate fair.

4/12/57 Never had one of these. The 15s and 30s look OK, but, I'd raise the L3 & L6. The L3 to \$50. and \$65. The L6 to \$75. and \$95.

6/14/57 I'd price these on the same basis as above:

15S	\$70.	\$90	30S	\$50.	\$65
L3	75.	95.	L6	90.	--

11/20/57 Where do you get \$29.? Why not keep all prices in multiples of \$2.50? That would charge \$22. to \$22.50 and \$29 to \$30. Though a small issue, somehow these seem to turn up. According to the number printed, there doesn't seem to be much reason to W/Rs pricing of the 6S note at \$20. in 1955. (could it be that he had a lot of 6S notes to sell?) There may be some sense to it though, since it was the smallest denomination and probably saw the most use. I never had one and you didn't in the collection. Check with EPN on this. How about these prices:

6S	20	25	35	15S	12½	17½	22½	30S	10	12½	17½
L3	15	22½	30	L6	27½	50	--				

5/1/58 Same note on 6S. I'd boost these a little

6S	15	20	30	15S	10	15	20	30S	7½	12½	17½
L3	12½	17½	22½	L6	22½	30	45				

10/20/58 I once had a 12S note, but, no record as to what I sold it for. From the amount printed, I don't know why it should be so rare. Perhaps it was partially withdrawn, or possibly, never fully issued. Check with EPM.

4/10/59 Again the 6S pops up. I'd suggest same prices as 5/1/58.

4/12/60 Again W/R makes a big deal about the lower denominations. How about:

1st 4 denoms	12½	20	30	12S	7½	12½	20	15S	10	15	25
30S	12½	20	30	L3	15	22½	35	L6	20	30	45

4/23/61 Another small issue which seems to show up. Prices seem to be OK, but, to get to multiples of \$2½, change 15S in VG to \$30, and 30S to \$7½ & 12½.

4/8/62 Seems OK except for odd figure prices.

12/31/63 Seems OK, again except for odd prices. Also, I think UNC notes should be more. Though they're around, they're not that plentiful. I think \$50. would be more in line.

4/16/64 OK but, 15S 12½ in good and L3 \$25. in VG

2/20/76 Sounds reasonable

3/25/76 I think too low. I'd suggest 1S thru 30S 7½ 10 25

L3	15	20	45	L6	20	30	65
----	----	----	----	----	----	----	----

6/9/80 & 1/9/81 Seem OK

5/17/86 Looks OK. 3S & 6S to 32½, also 12S. In trying to stay under \$100. you show less of a price spread in the higher denominations than the lower. I'd suggest L3 65 85 -- L6 75 95 -- Or else, go over the \$100 mark.

** 1/26/56 1S 20 30 18d 25 35 3S 30 40
6S 35 50 12S 35 50 15S 60 80

Penna Gazette 1744 Nov 15

One shilling N. J Bills etc.

stiff paper

Sage leaf, all done.

First ~~I~~ I in ~~the~~ SHILLING ~~is shorter than second~~
Second L is shorter than first

This must be the Mar 25, 1737
issue

It shows sage leaf was
used here and this is
the first use ~~of~~ anglo
americana of native printing

New Jersey

July 8 1732 Act

16 years from date of bill,

See 25 L 1600 £ 1600 to be held for a year and then
used for exchange for worn bills

Royal Approval to be obtained before making or passing

Royal Approval May 4, 1732

22

Aug 13, 1733 Act

16 years from date of bill of credit

that His Majesty's Royal Appointment shall take
place before making, passing or passing the
Bills of credit when enabled to be content

Royal Approval May 4, 1735 ✓

1746 Act July 2, 1746 date £10,000
such Bills shall be nearly the business
and interests of the Bills of credit
now current within Colony
Current from 3/25/46 for 7 years
6000 French
francs

New Jersey

Vol 15 p 253

Nov 8, 1742 ~~Act~~ to make £40,000 in Bills of Credit passed ready

Nov 17, 1742 passed by Council

Not in 1742 or 1743 Acts
of New Jersey

so Governor probably didn't
sign it.

He made an appearance to question
it

New Jersey

1730 Bill approved May 4, 1733 in Council

1733 Bill approved May 4, 1735 "

1733 issue ^{Mar 25, 1737 + 16 years}
^{expired betw Man + Man} Mar 25, 1753

£60,000 bill approval sought Nov 1753

changed to £89,000 to include interest for war expenditure

1754 11/26/54 16 year Man + Man £70,000 to drive French out of Canada
